

Rev A - Previously proposed storage sheds now relocated to south boundary wall of churchyard

Existing timber gates removed and replaced with traditional solid timber boarded doors, with glazed fanlight over. See drawing 1922-048 - North Porch Doors.
Rev B - existing gates to be retained, restored and relocated inside arch behind the swing of the new doors.

For new path to Office/Vestry see drawing 1922/044.
Rev A - new path to be laid with reclaimed natural stone to match Shelley's Walk

Existing entrance path re-graded to achieve 'level' access through west door (secondary entrance)

West entrance doors reduced in height at base, to suit new floor level. Entrance to be used for special occasions. See drawing 1922-052 - West Elevation.

Rev A - Previously proposed ASHP and enclosure adjacent to south wall of tower, now relocated to south boundary wall of churchyard

2 no. rooflights to be installed in Office/Vestry roof to be centred within ceiling panels. See drawing 1922-043 - Roof plan.

Rev B - Footpath to be formed linking external storage with Shelley's Walk. No-dig geocellular construction to minimise impact on ground, burials and tree roots. Route to avoid tombs and headstones

Rev B - For proposed Outbuildings see drawing 1922/045. Two separate timber framed and timber clad sheds with shingle roof coverings to be located adjacent to southern boundary wall of churchyard, with enclosure for refuse store. Storage sheds to be placed on concrete base with concrete base to bin store/maintenance enclosure

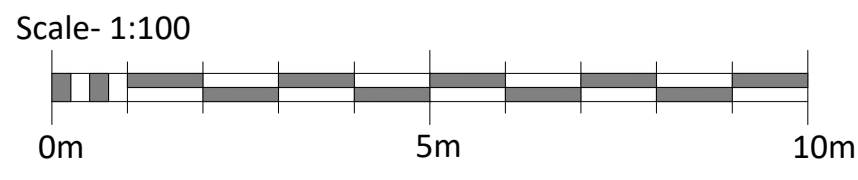

Shrubs to be removed

Note: All internal works subject to faculty process - to be dealt with separately. Shown here for information purposes only. Not subject to this planning application.

Rev B - Suggested route of pipes below ground to boiler room shown to avoid burials - final route to be agreed after detailed site investigations and subject to exact specification by engineer.

Rev B - location for ASHP and enclosure against south boundary wall, in line with East wall of neighbouring residential property. Design of acoustic enclosure tbc by engineer.

SITE PLAN

1st Sept 23 Further revisions made to location of storage sheds and alternative location for ASHP enclosure and suggested pipe runs.
A 5th Aug 23 Amendments made following discussions with the planning officer, committees and client.
